Search for all books with this author and title. A conversation between the author and a principal secretary, concerning the affairs of that empire. Customer Reviews See All. Although metadata is arguably a less familiar term among creators and consumers of networked digital content who are not information professionals per se, those same individuals are increasingly adept at creating, exploiting, and assessing user-contributed metadata such as title, description, and keyword tags for web pages; terms from so-called folksonomies; and social bookmarks. Very informative read, too bad is Western-centric, not much regarding misogyny in non-Western cultures except on how the West might have influenced the religious radicalization in some Middle Eastern and Asian countries.
